

PERFORMIX

# Weigh and Dispense

Strengthen Compliance & Optimize  
Weigh & Dispense Process

Weigh & Dispense processes are critical to pharmaceutical manufacturers as they directly impact product quality, compliance and waste. Getting reliable results is challenging since data from different sources like SAP, Weigh Scales, Warehouse and other data points that needs to be collected and analyzed. The traditional paper-based solutions are manual and error prone making trace-ability and audit trail very cumbersome.

Performix Weigh & Dispense solution enables efficient management of Weigh & Dispense process and enforces data integrity and compliance. This cGMP compliant solution helps automate data collection and optimizes weighing process. The solution facilitates numerous weigh methods and integrates with SAP ECC/S4HANA and Weigh Scales. The solution streamlines manufacturing process while achieving detailed real time transparency and adherence to 21 CFR Part 11 compliance requirements.

Performix Weigh & Dispense solution is available On-premise as well as on cloud platform (SAP/AWS).

**Intuitive graphical user interface**

**Validation of Material, Batch, Quality & Expiry & enforce compliance**

**Realtime consumption postings to SAP**

**Various Dispensing Reports**

**Label & Container Management**

**Dispensed Material Label**

Req. Qty	Net Qty	Tare Qty	Gross Qty	Dispensed UoM	Container ID	Balance ID	Performed By / On
20	20	0	20	KG			

For	PRODUCT NAME
BATCH NO.	SUR LOT NO.
PROCESS ORDER	MATERIAL CODE
MATERIAL NAME	SAP BATCH NO.
INFLUT NO. (A/R N/L)	REQUIRED QUANTITY
GROSS QUANTITY	ISSUED QUANTITY
TARE QUANTITY	BALANCE ID
MFG DATE	EXP. DATE
RETEST DATE	ASSAY/POTENCY FOR BOM C.
REMARK	DATE
DONE BY STORE	CHECKED BY PROD.

# Key Features of Performix Weigh & Dispense

- Multiple weigh methods for various W & D scenarios
- Compliant with 21 CFR part 11 for eSignature
- Integrated with SAP ECC and S4HANA (IM, WM, QM)
- Weigh Scale Integration & Calibration Management
- Excipient adjustments based on API Potency
- Full electronic Lot traceability and Audit trail
- Label printing and management
- Container Management
- Risk and Safety warning notification
- More than 20 Dispensing Reports
- Multi-Lingual (including Asian Language) Support

## WHY PERFORMIX?

### Compliant solution for Batch Process manufacturing

- Weigh & Dispense, Master Batch Record (MBR) & Electronic Batch Record (EBR)

### Built for regulatory compliant industries

- 21 CFR Part 11 and cGMP compliant
- Templates significantly reduce the validation effort

### Leverages SAP application landscape

### Rapid deployment & Roll out

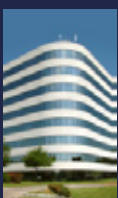

- Out of the box integration with SAP S4/HANA
- Libraries and templates for manufacturing process

### Small footprint & minimal configuration

### Quicker payback on investment

#### North America

Address:  
Performix Inc.,  
9800 Richmond Ave, Suite 265  
Houston, Texas - 77042
